

Ever wondered how big the hole created by removing 2.5 million tonnes of coal a year would be?

We know how big the hole created by removing 25,000 tonnes of coal is!

**Mining next to the Pages River?
It's not worth the risk!**

BCAG

Bickham Coal-mine Action Group

Can you imagine the Upper Hunter without open cut mining?

We can...

Mining next to the Pages River? It's not worth the risk!
